Experience

Software Engineer Intern

OppoTrain   Jul 2025 - Sep 2025

- Developed problem-solving skills through leetcode.
- Strengthened soft skills such as communication, and teamwork.

Projects

9gag Meme Sharing Platform | [GitHub Link](#) | MERN Stack   Aug2022- Dec 2022
a full-stack web application for sharing memes, forked from an existing project. You implemented user authentication, meme upload, and social interaction features, and designed a responsive and intuitive user interface.

QA | [GitHub Link](#) | Java | TypeScript | Playwright   Aug 2025 - Dec2025
These repositories showcase your skills in Quality Assurance, including automated testing with Playwright and test-driven development in Java and TypeScript. The projects appear to be coursework, demonstrating your understanding of software testing principles and practices.

Cap Advisor | [GitHub Link](#) | Node.js | Express | MongoDB | EJS | Bootstrap   Apr 2024 – May 2024A
decision-support web application designed to help capstone students identify whether their interests align more with software development or artificial intelligence. The platform provides an interactive form that collects user responses and suggests the most suitable path based on their answers.The backend is built with Node.js, Express, and MongoDB/Mongoose, with session management and form validation. The frontend uses EJS templates and Bootstrap for a responsive UI.The project follows MVC architecture with dedicated controllers, models, and routes. Environment variables are managed via dotenv, and the development workflow uses Nodemon for hot reloading.

Technical Skills

Programming languages: Python, JavaScript, C++, Java
Frameworks : Node.js, React,Express
Database: MySQL , MongoDB
Other: GitHub, Trello, Slack, Notion,Jira ,design pattern and Design principle

Education

An-Najah National University   Aug 2021 - 2025
Computer Science Apprenticeship (CAP) (Focus in software engineer).
Featured Courses: Data structure , DataBase, Algorithms, S.W .
